

**RED BULL MUSIC**

# FESTIVAL INSTALLATION

**AVA Festival has partnered with Red Bull to give an artist (or collective) the budget and opportunity to create an installation at the festival, to live during both day and night. The installations should be impactful, use light and/or AV in some form and create a lasting impression on both the festival, and the attendees.**

Two installation spaces are available; either hung above the Red Bull dancefloor OR behind the Red Bull Stage as a large-scale backdrop. Above the dancefloor option dimensions — 8m x 20m OR behind the stage option dimensions — 8m x 10m. Further information is available upon request, including floorplans, dimensions, weight loads and photographs - please contact [info@avafestival.com](mailto:info@avafestival.com) for more information.

It must look as good in daylight as it does in darkness.

The total budget for the project is £4,500 and this must cover every element of the installation, including any related hire charges, power (if required), lights, staffing, suspensions, platforms etc.

Please see T&Cs for more details, deadline is 18th April, with winner announcement by the end of April. Judges will be the RBM Head Designer and Sarah McBriar.

**To enter, complete the application form AND please upload a PDF that covers the following;**

1. Vision + Description
2. Designs, with dimensions
3. The Project Plan and Team you would use to build / create the installation
4. Budget breakdown with suppliers

#### **Terms and conditions**

By submitting you accept the following terms and conditions:

- All copyrights remain the property of the submitting artist.
- Artists must supply their own insurance (Public Liability).
